

Hot Tub Permit Requirements

How can I submit a permit application?

Required paperwork shown below can be dropped off at Village Hall (500 S Fish Lake Rd, Volo, IL 60073) Monday-Friday from 8am until 4pm. After hours they can be submitted via our utility payment drop-box located outside of Village Hall. Applications can also be submitted electronically via email to building@villageofvolo.com

What do I need to obtain a Hot Tub Permit?

- Village of Volo Building Permit Application
- HOA Approval Letter
- Copy of the plat of survey showing hot tub location (hand drawn is acceptable) & dimensions labeled
- Detailed description of Project

Hot Tub code regulations to keep in mind:

- Labeled Emergency Shutoff within site and at least 5 feet from tub edge.
- Glass within 60" horizontal (Tub Edge) and 60" vertically from the floor is required to be safety glazed (tempered).
- Hot tub cover complies with ASTM F 1346.
- Maximum electric loads of 48 amps protected by a 60-amp circuit.
- 50 amps or less -- shall be protected by a ground fault protection circuit/outlet. See next item for exception.
- A listed self-contained hot tub equipment assembly marked to indicate that internal ground fault circuit protection is provided, shall not require that the outlet supply be protected by ground fault circuit protection.
